Submission of Academic Documents

- Q2:** Will official academic documents be required for students who initially enroll full time in the 2023-24 academic year?
- A2:** Official academic records are required for initial-eligibility certifications. If only unofficial records are available for students who initially enroll full time in the 2023-24 academic year, they may be submitted to ec-processing@ncaa.org directly from the email address associated with the student's Eligibility Center account and should include the student's NCAA ID in the subject line.

Starting May 1, 2024, official academic records will be required and must be submitted via an approved channel for [domestic](#) or [international](#) students.

Academic Evaluations

- Q3:** Will there be any flexibility in the Division I core-course time limitation for students who initially enroll full time in the 2023-24 academic year?

- A3:** Yes. For students who initially enroll full time during the 2023-24 academic year, up to six **core-course** units completed after starting the seventh semester (and before full-time enrollment) will be used in the student's initial-eligibility certification, regardless of whether the student graduated on time or when the courses are completed (i.e., during the academic year or summer term). Also, all core courses completed before initial full-time enrollment may be used in the Division I academic-redshirt certification.

However, students who initially enroll full time in the 2024-25 academic year and beyond must complete initial-eligibility requirements within the Division I core-course time limitation (four years after initially starting year nine). Students who graduate on time may complete one additional core-course unit within one year after graduation and before initial full-time enrollment. Students who graduate on time and have an **education-impacting disability** may complete three additional core-course units after graduation and before initial full-time enrollment.

- Q4:** How will courses completed via distance, e-learning or hybrid options be evaluated for students who initially enroll full time in the 2023-24 academic year and beyond?

- A4:** The Eligibility Center will require a program review for all courses completed via distance, e-learning or hybrid programs on or after September 1, 2023.

However, a program review will not be required for distance, e-learning or hybrid programs that were offered by schools with NCAA-approved core courses in spring/summer 2020 or during the 2020-21, 2021-22 or 2022-23 academic years.

For parents administering home school curriculum, please review the information included in the Eligibility Center home school [resources](#).

Q5: How will pass/fail grades be evaluated for students who initially enroll full time in the 2023-24 academic year and beyond?

A5: NCAA-approved core courses that receive a grade of Pass and are completed on or after September 1, 2023, may be used to meet core-course requirements and will receive the high school’s lowest passing grade.

For core courses completed in spring/summer 2020 or during the 2020-21, 2021-22 or 2022-23 academic years that have been issued a grade of Pass, the Eligibility Center will apply the credit earned in these courses toward the core-course requirement. If the student's core-course GPA would increase by assigning a value of 2.300, this value will be assigned to the passed courses. However, if the student's core-course GPA would decrease by including the 2.300 value for passed courses, the student’s core-course GPA will be calculated based only on courses with assigned letter grades from previous terms. (Credit from these courses will still be applied toward the student's core-course requirements.)
